...A's regulation of
genetically engineered (GE) food, to ask that the agency's current
policies be changed, and to support all the points in
docket # 00P-1211/CPI, specifically: 17 AUG

- All GE foods should be labeled so I am informed and have a choice.
- GE foods should not be assumed to be "generally recognized as safe" and should have mandatory pre-market safety testing.
- There should be a moratorium on GE foods and crops until long term studies show they are safe for human health and the environment.

Additional Personal Comments:

*I am horrified by
my lack of choice in this
whole thing.*
